Experience

GCCP CAMPAIGN

I was a part of Gccp campaign which was held in maharaja surajmal institute of technology . It was great experience learning from seniors and having hands on workshop on google cloud and how it works.Having daily task make us ready for the real world problems and i was able to know about backend of cloud .

ROBOTICS EXHIBITION

Robotics interschool exhibition was a great fun where me and my team got selected for laser security system project . There was a lcd screen with a keypad ,using led sensor and laser light and brain of all of this was arduino 350 . from this project i learned to work with team and helping in each others part to make the project work.

MEMBER OF ATAL LAB

Being a member of ATAL lab we got to learn about many things about chips Arduino and all. from here I learned about IOT, to handle the data and put it online and from here I got interest in robotics and in coding background .
